

Product Designer · Enterprise UX & AI-assisted Workflows

6 years designing healthcare and fintech software, turning ambiguity into practical solutions through product judgment, AI-assisted prototyping, and engineering partnership.

Austin, TX · Open to relocation

EXPERIENCE**Oracle** | UX Designer

Nov 2021 – Sep 2026

Clinical One · Life sciences intelligence

- **Reframed clinical data entry** around the next user action. Designed centralized configuration and a shipped Focused View for screening, randomization, and dispensing.
- Designed **human-in-the-loop UX** for an AI rule-authoring agent: intent clarification, reviewable drafts, and clear handling of unsupported requests; scoped workflows moved into development.
- Developed **0-to-1 MVP concepts** for two life-sciences intelligence products, translating initial requirements into core workflows and interactive prototypes.
- Drove a performance-focused Clinical One redesign from **design initiative to committed roadmap work**, securing VP approval and an assigned PM for the current delivery cycle.
- Built prototypes with error and branching states; created **reusable AI skills** that help colleagues build and share prototypes internally.
- Helped drive **Redwood design-system adoption** across 9 modules and mentored a junior designer through feedback and concept exploration.

Global Payments | UX Designer

Sep 2020 – Nov 2021

- Redesigned dashboard navigation and core task flows for a merchant payments portal.
- Created a centralized design resource site to make shared patterns and guidelines easier to find and apply.

EARLIER EXPERIENCE

Tencent | UX Designer — Tencent Game Accelerator; security dashboard

May – Aug 2019

NetEase | Product Designer — MailMaster, a multi-account email client

May – Aug 2018

SKILLS

Product design: Problem framing · Complex workflows · Interaction design · Design systems

AI & delivery: Human-in-the-loop UX · AI-assisted prototyping · Reusable AI workflows · Engineering handoff

EDUCATION

M.S. Human Computer Interaction & Design · Indiana University Bloomington · 2020

B.E. Industrial Design · Zhejiang University · 2018
